

Having problems writing your cheques?

Writing cheques and preparing payments is a normal 'have-to-do' task in every business.

It can be a tedious task especially when it involves larger numbers of cheques - even the spelling of payees' names can be a problem! Very often cheques are cancelled because the amount in words has been written wrongly. This is a waste of time, effort & money.

Discover a complete and easy to use cheque writing solution from **MoneyWorks Cashbook** (Mac & Windows) that will help you simplify the process to

- Prepare payment vouchers
- Print Cheques
- Update your Cash Book & keep track of bank balances

8 Good Reasons why you should use MW Cheque Printing Solution

1. Reduce stress & errors when issuing cheques and payment vouchers.
2. Save time – replace manual handwritten cheques with professional looking printed cheques.
3. No spelling errors when writing Amount in Words..... Just key in the amount in numbers and the system will spell it out into words accurately.
4. Fill in the Payee Name correctly...The system maintains a database of your Suppliers and Other Payees for quick & easy use when issuing payments.
5. Able to print on to your cheques from your normal cheque book provided by various Malaysian banks (CIMB, MAYBANK, PBB, HLBB, AFFIN, HSBC etc)
6. It helps you keep a record of all your payments and receipts for your easy reference.
7. It updates and keeps track of your bank balances.
8. Simplifies your monthly Bank Reconciliation of all your bank accounts

What our customers say of cheque printing :

" Speed, easy, a single task cheque 'prepare, print & issue'..... Able to know what's bank balance"

" It saves time and prints accurate information when issuing payment vouchers and writing cheques"
